10 Years of
Virginia Garcia
School Based Health Centers
in Washington County

BIG WINS for Reproductive Health

In the 10 years of SBHCs in Washington County the goal to provide truly comprehensive healthcare to the people that need it the most has been the same in all the school districts we work in, this includes Reproductive Health.

The process may have looked different in each community, but we are proud to say Virginia Garcia School-Based Health Centers are now...

Serving 81,644+ students for truly comprehensive health care!

What is Tele-Dentistry?

Tele-dentistry started in Alaska 5 years ago. Virginia Garcia is one of the pioneer Oregon programs. It is the concept of pairing mobile technology with our Hygienists in the field to take diagnostic information and send it remotely to the Dentist that is off site. This allows the Dentist to conduct a dental exam of the patient without ever coming in physical contact with them.

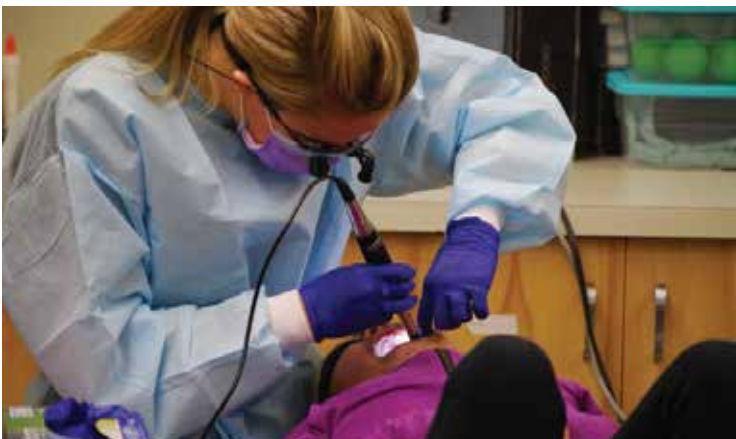

What are the benefits?

The process is convenient for the patient because they get two appointments worth of visits in one sitting without

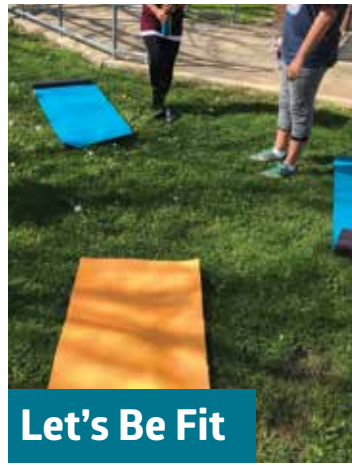

having to take time off of work or school. This benefits the organization by allowing lower paid Hygienists to work at the top of their license and by reducing the expensive Dentist hours spent per visit.

What is the future of SBHC Tele-Dentistry?

The successful pilot resulted in future programs at the OB Clinic as well as the Tigard SBHC and Century SBHC in the coming years.

Youth Summit

Let's Be Fit

Job Academy

SBHC summer program to help build important and tangible life skills for students, grades 9–12.

- » Resume Building
- » Cover Letter Writing
- » Financial & Education Planning
- » Job Interview Prep
- » Career Exploration
- » Job Experience Training
- » Volunteer Connections
- » Team Building

SHAC

Student Health
Advisory Committee

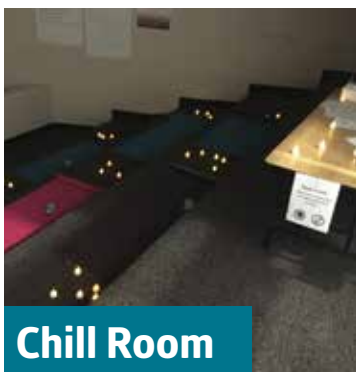

What is SHAC?

An active group of students whose goal is to bring awareness to their peers about general health and mental health issues.

What does SHAC do?

Promote awareness of health issues through school events, campaigns, dialogues, presentations, and other creative ways! SHAC holds meetings 4-5 times a month to work on projects and discuss what's going on in the school community.

2018 Advocacy Day

Chill Room

2018 3K Rainbow Rush

What Students Say:

"The Job Academy informed me on the things that we don't get taught in school. I feel more prepared for my job search and I now have some awesome new connections."

"I do feel more prepared and confident that I can get a better job. I feel more capable and more motivated to reach higher."

"After this week, I feel that I have a more prepared mindset for my future."

Dental Sealant Program

Patient Counts, 7/1/17-6/30/18

5,317
physial
health

3,046
mental
health

2,534
dental
health

Physial and mental health have increased since the 2016-17 school year.

We asked students their favorite thing about being involved with SHAC and the SBHC?

“Being an advocate for other students and our community.”

“Learning skills, meeting new people, and serving the student body and community.”

“How close and friendly everyone is, this feels like a safe environment.”

“The sense of community.”

Summer Outreach

During the Summer, when the day to day tasks of the school year are light, we go out into the community and let people know how they can receive services from the School Based Health Centers. We discuss which one is closest to them, what kinds of services we provide, and we also make sure to have a little FUN too.
