

GLENCOE HIGH SCHOOL DRAFTING

Imagine working in the Drafting industry if your favorite subjects are:
Art, STEM or Math

IMPORTANT CHARACTER TRAITS TO HAVE:

RECOGNIZING
STRENGTHS

PERSPECTIVE-TAKING

ORGANIZATIONAL
SKILLS

TEAMWORK

SOLVING
PROBLEMS

WAYS TO EXPLORE:

THINK

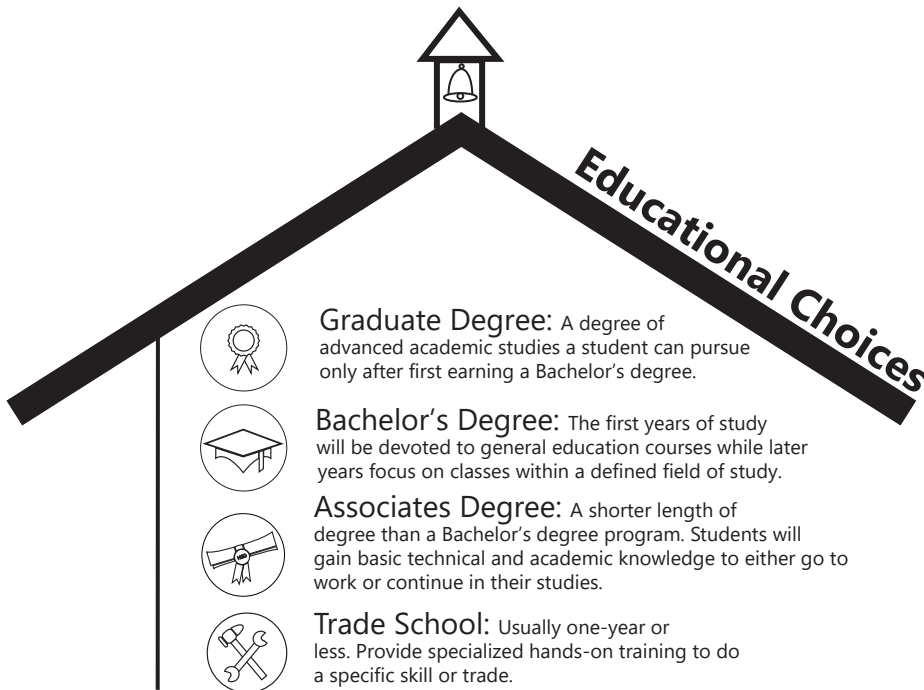

•Think about proportion and scale. Architects couldn't possibly draw a building the same size as it will be built but they draw the building to scale.

CREATE

•Build a fort. What materials will you use? Pillows, snow, or scrap wood? How big will your fort be?

INVESTIGATE

•Test how much weight a single sheet of paper can hold simply by changing its shape. Try cutting it, rolling it, twisting it, folding it, or bending it to make the paper stronger. How else can you explore in the area of **DRAFTING?**

DRAFTING CAREERS	SALARY POTENTIAL	EDUCATIONAL REQUIREMENTS
Engineer	\$\$\$	
Architect	\$\$\$	
Interior Design	\$\$	
Plumber	\$\$	
Electrician	\$\$	
Structural Designer	\$\$\$	
Machinist	\$
